

2018 Illinois Crisis Standards of Care Tabletop Exercise

June 11, 2018 1:00pm-4:00pm Normal, Illinois

The Chicago Department of Public Health (CDPH) & The Illinois Department of Public Health (IDPH)

Invite you to participate in a tabletop exercise demonstrating the application of the IDPH Emergency Support Function-8 (ESF-8) Plan: Catastrophic Incident Response (CIR) Annex concepts to a catastrophic incident. Hospitals, public health, emergency medical services professionals, and other healthcare partners across Illinois will discuss pandemic influenza triggers, transition to crisis care standards of patients, development of crisis care and resource allocation tactics, and discuss the distinctions between contingency patient care and crisis care standards of patients. This exercise is compliant with the Homeland Security Exercise and Evaluation Program. (HSEEP)

Objectives of the Exercise include:

- Information Sharing: To identify the pandemic influenza triggers for regions, hospitals, EMS, and local health departments along with the key elements associated with hospital and EMS transition to contingency care.
- Operational Coordination: To develop crisis care and resource allocation tactics for regions, hospitals, EMS, and local public health departments.
- Medical Surge: To describe the differences between contingency care and crisis care for regions, hospitals, EMS, and local public health departments.

Who should attend?

Executive leaders e.g., CMOs, CNOs and COOs , Emergency and disaster care clinical champions, Healthcare legal counsel, Emergency responders, Public health professionals, Risk and quality improvement professionals, Preparedness partners from hospices, safety-net providers & nursing homes
